# OSPREY **50** YEARS PUBLISHING 1968–2018

## Greetings from Osprey!

Bring out the cake and blow out the candles because 2018 marks Osprey's 50th anniversary! Given that we have now reached this milestone, I've been delving into our history to see how things have changed over the years.

Though our first series, Aircam, is no longer with us, many of our series have been around for decades, including Men-at-Arms (1971), New Vanguard (originally as Vanguard in 1978) and Elite (1984). These have been joined by dozens of new series that have expanded our list, including Weapon (2010), Combat (2013) and X-Planes (2016).

This year, we are adding a brand new name to this venerable list, **Air Campaign**, which will take a new look at the greatest air wars in history, from the Battle of Britain to Operation *Rolling Thunder*. You can find more about this exciting new addition to our list on page 12.

Since 2003 we have also been publishing General Military books and in the first half of 2018 we have some very exciting titles. *Morning Star*, *Midnight Sun* (p.2), Jeffrey Cox's much-anticipated sequel to *Rising Sun, Falling Skies* (2014) publishes in February, and we are marking another anniversary, the centenary of the end of World War I, with *1918: Winning the War, Losing the War* (p.2) which comes out in March.

Our Games division was launched back in 2008, and this area of the company has gone from strength to strength ever since. One of our strongest game titles has been the multi-award-winning *Frostgrave* (2015) which gets its fifth supplement, *Frostgrave: The Maze of Malcor* (p.26) in May.

It has gone into company lore that in 1974, Men-at-Arms series editor Martin Windrow thought that the series had maybe one year left in it. That series now has over 500 books, and the whole Osprey list totals over 3,000. Over the 50 years we have grown, evolved and taken on new challenges, but what has remained unaltered is our goal of producing high-quality, informative books for military history enthusiasts.

Here's to the next 50 years!

Richard Sullivan, Managing Director

# INTRODUCING OUR NEW SERIES **AIR CAMPAIGN**

## ACM 1 **Battle of Britain 1940**

The Luftwaffe's 'Eagle Attack'

Author: **Doug Dildy**  
Illustrator: **Graham Turner**  
Available: **January 2018**  
ISBN: **9781472820570**  
Period: **World War II**

The Battle of Britain was not just a heroic story of 'The Few'. The Luftwaffe's campaign against Fighter Command was also a new type of air warfare: the first ever offensive-counter-air operation against an integrated air defence system. Based on original documents, this rigorous new analysis of a much-mythologized campaign argues that the Luftwaffe's own mistakes led to its defeat, which kept alive the chance to defeat Nazi Germany.

## ACM 2 **Rabaul 1943-44**

Reducing Japan's great island fortress

Author: **Mark Lardas**  
Illustrator: **Mark Postlethwaite**  
Available: **January 2018**  
ISBN: **9781472822444**  
Period: **World War II**

In 1942, the massive Japanese naval base and airfield at Rabaul was a fortress standing in the Allies' path to Tokyo. It was impossible to seize Rabaul, or starve the 100,000-strong garrison out. Instead the US began an innovative, hard-fought two-year air campaign to draw its teeth, and allow them to bypass the island completely. Mark Lardas explains how this legendary air campaign was conceived and fought, and how its success provided a roadmap for the rest of the Pacific War.

## THE AIR CAMPAIGNS THAT CHANGED HISTORY

## ACM 3 **Rolling Thunder 1965-68**

Vietnam's most controversial air campaign

Author: **Richard P. Hallion**  
Illustrator: **Adam Tooby**  
Available: **February 2018**  
ISBN: **9781472823205**  
Period: **Vietnam War**

In 1965, the nuclear-focused US air forces had to hastily adapt to fighting a conventional war. Hampered as they were, they were then crippled by inadequate strategy and rampant political interference, and *Rolling Thunder* became a byword for pointless, ineffective brutality. Dr Richard P. Hallion, a vastly knowledgeable air power analyst, explains how *Rolling Thunder* became the ultimate 'how-not-to' air campaign, which ironically led to a renaissance in US air power.

## ACM 4 **Malta 1940-42**

The Axis' air battle for Mediterranean supremacy

Author: **Ryan K. Noppen**  
Illustrator: **Graham Turner**  
Available: **February 2018**  
ISBN: **9781472820600**  
Period: **World War II**

In 1940, the strategically vital island of Malta was Britain's last toehold in the central Mediterranean, capable of wreaking havoc among Axis shipping. Multilingual aviation analyst Ryan Noppen describes the air campaigns to knock Malta out of the war, led first by Italy and then Germany, and explains why they ultimately failed.

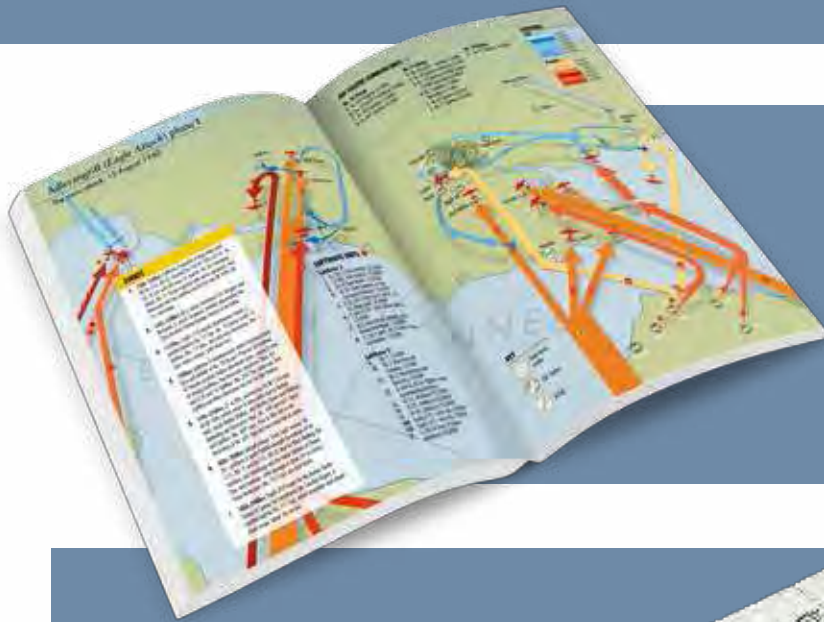

Packed with artwork, maps and diagrams, the fascinating new Air Campaign series examines how the world's greatest air wars have been fought. Analyzing the goals of the attacking air commander, the aircraft he had to work with, the opposing air defences, how he planned the attack and how the pilots actually fought it, this series sheds light on why air campaigns have been won and lost.

*Burrows & Badgers* is a tabletop skirmish game set in the ancient realm of Northymbra, a kingdom where mice, badgers, toads, and other animals wear armour, wield swords, and cast magic spells.

Your tabletop becomes part of Northymbra, whose ruined villages, haunted forests, and misty marshes play host to brutal ambushes and desperate skirmishes. Lead your warband from battle to battle, and uphold the name of your faction, whether you stand with Reinert's Royalists, the Freebeasts of the Fox Families, or simply for your own glory or survival.

Scenarios link into ongoing campaigns, where heroes make their names, and the assistance of infamous mercenaries might mean the difference between victory and defeat.

Author: **Battlefront Miniatures**  
Available: **February 2018**

Vietnam. In a remote corner of the world, one of the bloodiest wars ever to be fought took place in this small Southeast Asian country. Traditionally framed as a war of small skirmishes, long patrols, and guerilla ambushes, the Vietnam War also played host to full-scale offensives and pitched battles.

Building on the success of Battlefront's *Team Yankee*, 'Nam gives you everything you need to bring the Vietnam War to life. With easy-to-learn rules and forces, as well as detailed information on scenarios and missions, you can feel fully briefed before you step onto your Huey and lead your troops to the landing zone!

The fate of a nation hangs in the balance. Israel cannot afford to lose a single battle. One defeat would mean the destruction of the tiny Jewish state. Not waiting to be attacked by the Arab forces massing on its borders, Israel strikes first. Hundreds of tanks sweep across the border and punch through the enemy defences, with infantry following up to clear the way for the advance to continue.

*Fate of a Nation* brings the Arab-Israeli Wars to the tabletop, allowing players to recreate the sweeping operations that helped to shape the Middle East. Take command of your forces and see how you fare in one of the Cold War's most volatile regions.
