### MERCHANT CRUSADERS IN THE AEGEAN, 1291-1352

MIKE CARR

The period from the fall of Acre until the end of the Crusade of Smyrna signified a dramatic shift in crusade impetus, as expeditions to liberate the Holy Land were superseded by those aimed at reducing the maritime power of the Turks in the Aegean. With this shift in impetus came a change in participation, as the members of the merchant republics of Venice and Genoa, together with the Frankish states in the Aegean, began slowly to replace the chivalry of Western Europe as the most suitable leaders of a crusade. Drawing on a wealth of previously unexplored sources, this book analyses the changing Latin perceptions of the Greeks and Turks during the period, the nature of the military response to the threat posed by the Turks in the Aegean and the relationship between the papacy and the merchant crusaders.

### CRUSADING AND PILGRIMAGE IN THE NORMAN WORLD

Edited by KATHRYN HURLOCK & PAUL OLDFIELD

The reputation of the Normans is rooted in warfare, faith and mobility. They were simultaneously famed as warriors, noted for their religious devotion, and celebrated as fearless travellers. In the Middle Ages few activities offered a better conduit to combine warfare, religiosity, and movement than crusading and pilgrimage. However, while scholarship is abundant on many facets of the Norman world, it is a surprise that the Norman relationship with crusading and pilgrimage, so central in many ways to Norman identity, has hitherto not received extensive treatment. This collection fills that gap.

### CHIVALRY, KINGSHIP AND CRUSADE

The English Experience in the Fourteenth Century  
TIMOTHY GUARD

The central theme of this book is the largely untold story of English knighthood's ongoing obsession with the crusade fight during the age of Chaucer, "high chivalry" and the famous battles of the Hundred Years War. After combat in France and Scotland, fighting crusades was the main experience of English chivalry in the fourteenth century. The author chronicles in detail the participants and campaigns; associated matters of tactics, diplomacy, organisation, and recruitment are also minutely analysed. The book's second theme traces the surprisingly strong grip the crusade-idea possessed at the height of political society, as an animating force of English kingship.

## WRITING THE EARLY CRUSADES

## Text, Transmission and Memory

Edited by MARCUS BULL &amp; DAMIEN KEMPF

The First Crusade stimulated an upsurge in Western historical writing in the early twelfth century. These essays tackle the disjuncture between the study of the crusades and the study of medieval history writing, looking at the texts as cultural artefacts rather than simply for the evidence they contain.

## CRUSADING SPIRITUALITY IN THE HOLY LAND AND IBERIA, C.1095-C.1187

WILLIAM J. PURKIS

For much of the twelfth century the ideals and activities of crusaders were often associated with a monastic rather than a military vocation; crusaders were repeatedly depicted as being driven by a desire to imitate Christ and to live according to the values of the primitive Church. This book argues that the significance of these descriptions has yet to be fully appreciated.

## WAR AND THE MAKING OF MEDIEVAL MONASTIC CULTURE

KATHERINE ALLEN SMITH

While medieval monasteries have traditionally been portrayed as peaceful sanctuaries in a violent world, here the author demonstrates that monastic identity was negotiated through real and imaginary encounters with war, and that the concept of spiritual warfare informed virtually every aspect of life in the cloister.
